

Perfect-Teller Mobile Upgrade

Limited Time Special Offer - Save \$500.

I am ready to offer Mobile access for my members and wish to purchase the PT-Mobile upgrade.

Please read this information carefully.

1. Please be aware that the dollar limit cap will change from \$400 to \$500 per month when you add PT-Mobile (Most credit unions are no where close to this cap)
2. Mobile access is the same cost as other methods of accessing Perfect-Teller and will be billed at \$0.02 per sign-on, no matter if from cell phone or home/office computer. All PT accesses will be added together to get a total for the month, which will then be capped, if beyond \$500.
3. Mobile transactions will be tallied separately on your monthly invoice and can also be searched for in program 68-B on the CU2000 system.

Please choose one of the following:

I would like to purchase the **upgrade for \$1000 (before March 31, 2011)**

I would like to purchase the **upgrade for \$1500 (after March 31, 2011)**

I understand that per sign-on billing is the same, no matter if the sign-on is from a cell phone, home computer, office computer, laptop, or any other method of accessing Perfect-Teller. I also understand that the monthly cap for the cost to the Credit Union is increasing from \$400 per month to \$500 per month and is based on the total of all sign-ons to Perfect-Teller from any source, not just from Mobile devices.

Credit Union Name: _____ **Date:** _____
